

Downloading Multiple Files from the Home Folder

1. Log into the Home Folder (see the [“Logging into the Home Folder”](#) directions).
2. Either CTRL-Click or SHIFT-Click a group of files from the file list in the right pane.
3. Right click the selection and select Download As Zip.

4. Click OK to continue the download.

5. Click Save and select a location on your local computer to save the file to the Desktop.
